PROFESSIONAL SUMMARY

Full-Stack Developer with 2+ years of experience specializing in JavaScript frameworks, cloud technologies, and microservices architecture. Passionate about scalable applications, performance optimization, and writing clean, maintainable code.

WORK EXPERIENCE

Briswell Vietnam Co Ltd

March 2022 – July 2024

Senior Developer

- Led agile sprints by decomposing complex features into manageable tasks, assigning responsibilities, and providing daily updates.
- Optimized database queries to eliminate bottlenecks, improving page load times by 40%.
- Streamlined the spreadsheet import/export module, reducing execution time by 60% and enhancing system efficiency.
- Collaborated with stakeholders to analyze requirements and resolve ambiguities, ensuring project accuracy.
- Boosted on-time project delivery by 15% through effective planning and regular progress monitoring.
- Developed comprehensive unit tests to maintain a bug rate below 5% of total man-hours.
- Researched and integrated technologies such as AWS, microservices, and CI/CD pipelines to overcome complex challenges.

EDUCATION

Software Engineering

2016 – 2020

Ho Chi Minh University of Technology – HUTECH

GPA: 3.04/4.0

CERTIFICATIONS

TOEIC Certificate

Issued December 2024

Listening & Reading

Score: 775/990

PROJECTS

Briswell Continuous Integration (BCI)

November 2023 – March 2024

- Implemented an in-house CI/CD system using AWS Serverless architecture, contributing to its design and replacing CircleCI.
- Achieved a 90% reduction in operational costs while increasing overall system performance by 10%.
- **Technologies:** Lambda, DynamoDB, S3, CodeBuild, CloudFront, Cognito, EventBridge, GitHub APIs, Webhooks, NuxtJS 3, NestJS

Roland DG Connect

October 2023 – July 2024

- Contributed to designing a data-driven smart print management application with responsive interfaces for both mobile and web platforms.
- Optimized API calls for handling large data requests, significantly enhancing user experience without compromising speed.
- **Technologies:** Flutter, NestJS, GraphQL, SSO, Firebase, Azure Function

Strategic Skill Learning Platform

March 2023 – July 2024

- Enhanced the platform's core features, including video management and interactive dashboards, integrating AI-driven analysis.
- Improved API performance by 30% through optimizing import/export processes and developing a batch file upload feature.
- **Technologies:** VueJS 2, ExpressJS, S3, EC2, MySQL

Personal Project | Resume

April 2024

- Built an interactive personal resume showcasing project demos and a contact form, highlighting my expertise in front-end development and serverless technologies.
- Leveraged serverless architecture to optimize backend performance and reduce operational costs.
- **Technologies:** Auth0, Cloudflare Workers, ReactJS, HonoJS, Dropbox

SKILLS

Back-end: Typescript, ExpressJS, NestJS, HonoJS

Front-end: VueJS, ReactJS, Flutter, TailwindCSS, jQuery, HTML, CSS, JavaScript, NuxtJS, NextJS

Databases: MySQL, PostgreSQL, Redis, DynamoDB, MongoDB

API Architecture Styles: REST, GraphQL, gRPC, AMQP, WebSocket, Webhooks

Cloud: AWS

Containerization & CI/CD: Docker, CircleCI, GitHub Actions, Linux
